**After more than 50 years in this industry, Skycharter's policies and procedures have been often copied, but never exceeded. One of very few fully-integrated operators, Skycharter offers efficiencies, conveniences, and flexibility unavailable to others.**

# FBO (FIXED BASE OPERATION)

Established in 1968, Skycharter is the most experienced Fixed Base Operator in Canada dedicated to superior service, safety and value. Selected the FBO of choice for Toronto by the prestigious Elite Traveler magazine, Skycharter is also the long-time preferred FBO for CAA (Corporate Aircraft Association) and many private and commercial operators.

## SECURITY

With completely restricted access, our facility and the lock gate system designed and monitored to ensure privacy and safety are attractive features guaranteeing limited access to both aircraft and passenger areas. **Recognized for our security protocols by the airport authority, Skycharter FBO was chosen by the Presidential Marine One detachment and earned commendations from both the Commanding Officer, and the President of the United States himself.**

Skycharter operates 80,000 square feet of heated hangar space with streamlined efficiency, complete aircraft servicing and quick turnaround by professional line crews. A multi-million-dollar renovation of the base provides luxurious and comfortable surroundings for both passengers and pilots. A boardroom is available for private meetings while pilots are provided with a snooze room and a private lounge with spectacular views of the airport. Light snacks are always available.

## CONCIERGE SERVICES

Skycharter is committed to exceeding your expectations. A customer service representative will help determine the best options for your travel needs and assist you in arranging limousine service, taxis, hotel accommodations, catering, event tickets and other special requests.

*Our Staff is determined to provide you*

**WITH THE BEST SERVICE ON THE FIELD.**

# AIRCRAFT MAINTENANCE

Skycharter's Maintenance Department received its Transport Canada approval in 1974 and has been an exemplar for many maintenance departments during the ensuing years. Employing only highly experienced engineers and led by a former Minister's Designate, Skycharter's AMO employs proven trouble-shooting, diagnosis and tracking procedures to ensure the highest-quality work, secure record-keeping and, ultimately, safety first. Use of flexible maintenance scheduling allows operators to maintain maximum flight-readiness, ensuring your aircraft is ready to fly when needed.

Skycharter AMO also provides an avionics and instrument shop, battery shop, as well as a complete parts department (purchasing and inventory). We provide maintenance tracking and planning, records review and importation, pre-purchase inspections, engine boroscopes, pitot-static checks, aircraft weighing, tool-calibration service.

## Our capabilities include:

- CHALLENGER 300, 600, 850 series
- FALCON 10, 20, 50, 900, 900EX, 2000 series
- HAWKER 400, 700, 800, 800XP
- GULFSTREAM 1, 2, 3, 4
- GULFSTREAM 200 series
- BEECHCRAFT
- Cessna 206 series
- Cessna Citation 500 & 600 series
- Cessna Twin turbopropeller
- Lear model 45 series
- Pilatus Pc-12 series
- Sikorsky S76 series

## THE BOTTOM LINE

***EXPERIENCED PERSONNEL USING PROVEN PROCEDURES TO PROVIDE THE EXPERTISE FOR EFFICIENT DISGNOSIS AND REPAIR, HELPING TO CONTROL COSTS AND ENSURE DISPATCH RELIABILITY.***

# AIRCRAFT MANAGEMENT

## SAFETY

One of the reasons Skycharter has enjoyed an unblemished safety record for over 50 years is our commitment to hiring only the most qualified pilots, for both experience and judgement. Unlike many corporate and commercial operators, Skycharter doesn't provide a stepping-stone path for junior pilots to gain experience, but selects only those who have demonstrated experience and sound operational judgement. Skycharter has been audited for safety by many corporations; we have maintained the ARG/US safety rating since 2014.

## RELIABILITY

Applying both institutional experience and that of seasoned professionals, Skycharter makes it easy for owners to fly where they want, when they want. We hire and supervise flight crew, ensuring their training and qualifications remain current at all times. We supervise timely maintenance to control costs and ensure air-worthiness. And we provide accountability in flexible, transparent formats so it's easy to see where costs are incurred.

## CONVENIENCE

With dedicated Client Relations staff having broad industry experience, owners can have their aircraft ready for dispatch to almost any destination within hours.

## CHARTER REVENUE

Skycharter is able to provide 3rd-party charter income. Our experience, relationships and industry knowledge help achieve cost savings at airports throughout North America. In Toronto, Skycharter is one of only two operators that own their own facilities, providing not only cost savings for hangar and fuel, but the confidence of knowing your asset will be hangared indoors at all times.

*With over 50 years' experience and full-service capability,  
**Skycharter** can provide customized solutions, with exceptional  
operating efficiencies and charter revenue to offset operating  
costs.*

# AIRCRAFT CHARTER

## AIRCRAFT CHARTER AND INFLIGHT SERVICE

Skycharter has served the Canadian business community safely and reliably since 1968. We employ only very experienced pilots who hold the highest level of aviation license. True professionals, they have flown thousands of hours with unblemished records. The pilots along with our marketing team combine a thorough knowledge of aviation with an understanding of the needs and schedules of corporate V.I.P clients.

### Aircraft Available for Charter

- Hawker 800
- Challenger 850

In-flight service is provided in an efficient and secure manner. The interiors are comfortable; clean, extra sanitized for your health and safety. Snacks, soft drinks, tea, coffee and bottled water are complimentary. Specialty meals, including vegetarian, Kosher or Halal can be provided upon client's request.

### We will help organize all the logistics of your travel, including:

- Limousine and car rental arrangements – at your destination and upon return
- Specialty catering arrangements
- Special requests
